#### Certification & Traceability:

This product was manufactured, processed and/or certified under a quality management system that is accredited **ISO 17034:2016** and **ISO/IEC 17025:2017**. The certified kinematic viscosities were determined in accordance with **ASTM D445**. The certified values are based on the primary standard, water at 40°C (ITS-90), with a viscosity of 1.0034 mm<sup>2</sup>/s (cSt) as adopted by **NIST**, **ASTM**, and **ISO 3666**. All values are traceable to reference standards characterized by the master viscometer technique in accordance with **ASTM D2162**.

All standard components used in the manufacture of this product are pre-qualified and verified before use. All volumetric dilutions are performed in Class A calibrated glassware. The balances used in the preparation of this CRM are calibrated regularly, using a calibration provider that is accredited to **ISO/IEC 17025**. Tests were performed for capacity, readability, repeatability and linearity.

This product is manufactured, packaged, stored, and shipped in accordance with good manufacturing practices that is certified to **WHO-GMP**. The uncertainty associated with each certified value represents the expanded uncertainty at the 95% confidence level using a coverage factor of k=2.
