

Certificate of Analysis.

Ammonium molybdate TS, According to USP.

Product Code:	BS11047.
Description:	Ammonium molybdate TS, According to USP.
Chemical Name:	Ammonium molybdate.
Pack:	250 ml.
CAS NO.:	NA.
Mol. Weight:	NA.
Mol. Formula:	NA.
Appearance:	Colourless liquid.
Storage:	Store at ambient temperature.
Batch No:	BS11047/07.
Manufacture Date:	20/10/2023.
Expiry Date:	20/10/2024.
Contents (acc. to USP):	Water, Nitric acid, Molybdic acid, Ammonium hydroxide.

Test	Procedure	Inference
Suitability test.	Add 2 ml of Dibasic Sodium phosphate TS to 5 ml of this solution.	If an abundant yellow precipitate does not form at once or after slight warming, this reagent is unsuitable for use.

Note: - This material is only for laboratory purpose and not for human consumption.

This product is prepared using high quality salts, acids and deionized water. According to USP, this reagent deteriorates on standing. If a precipitate forms during storage, use only the clear supernatant liquid. All standard components used in the manufacture of this product are pre-qualified and verified before use. Tests were performed for capacity, readability, repeatability and linearity. This product is manufactured, packaged, stored, and shipped in accordance with good manufacturing practices.

This certificate shall not be reproduced except in full, without written approval from Briti Scientific. This is a computer generated COA, no stamp or signature is required.
